## OFFICE OF ADMINISTRATION OVERVIEW

The Office of Administration (OA) is the state's service and administrative control agency. Created by the General Assembly on January 15, 1973, it combines and coordinates the central management functions of state government. OA's responsibilities were clarified and amended by the Omnibus State Reorganization Act of 1974.

The chief administrative officer is the Commissioner of Administration who is appointed by the Governor with the advice and consent of the Senate. The Commissioner appoints the directors of the divisions. OA is comprised of seven divisions, including: **Accounting-** maintains all financial records for state appropriations and funds, processes payments, controls production of warrants, and distributes checks; **Budget and Planning-** analyzes state government programs and provides recommendations and information to the Governor, General Assembly, and state agencies regarding fiscal and other policies; **Facilities Management, Design and Construction-** provides project management and construction administration for capital improvement projects; operates, maintains and manages state-owned office buildings and other structures, and is responsible for acquiring and managing leased space; **General Services-** provides agencies with a variety of support services such as printing, mail services, fleet management, vehicle maintenance, and administration of the legal expense fund and the state employee workers' compensation program; maintains responsibility for the statewide in-house recycling program; transfers and/or disposes of state agencies' surplus property to maximize state resources; and administers the Federal Surplus Property Program. **Information Technology Services-** manages state information technology resources; provides mainframe computer processing services through the State Data Center; manages the State's telecommunication services; and provides Internet services, and network support to all state agencies; **Personnel-** provides central human resource (HR) management programs and services to all executive branch departments in compliance with the State Personnel Law; and **Purchasing-** centralizes procurement to save money by purchasing supplies, materials, and services in larger quantities and encourages competitive bidding and awards on all contracts.

In addition, the Office of Equal Opportunity (OEO) is a program housed with the Office of Administration and has primary responsibility for assisting in the coordination and implementation of minority and women participation programs throughout all departments of the executive branch of state government.

A number of boards and commissions' budgets are also assigned to OA including: Administrative Hearing Commission; Office of Child Advocate; Children's Trust Fund; Governor's Council on Disability; Missouri Public Entity Risk Management (MOPERM); the Missouri Ethics Commission; and the Board of Fund Commissioners Public Debt (House Bill 1), which appears in a separate budget book entitled "Board of Fund Commissioners". Appropriations for state general obligation debt are appropriated to the Office of Administration in House Bill 1 and budget requests appear in a separate budget book entitled "Board of Fund Commissioners". Also, the Joint Oversight Task Force (JOTF) for Prescription Drug Monitoring was added to the Office of Administration with the passage of SB 63. The JOTF is authorized to supervise the collection and use of patient dispensation information for prescribed Schedule II, III, or IV controlled substances as submitted by dispensers in Missouri.

The Office of Administration also administers a number of debt and related debt obligations appropriations, various pass-through distributions from the federal government, and statutory payments and reimbursements to political subdivisions throughout the State.

Appropriations for all State employee benefits such as social security, retirement, and health insurance, are appropriated centrally to the Office of Administration in House Bill 5, budget requests for those benefits appear in a separate budget book entitled "Employee Benefits."

# Strategic Placemat – Our Top Priorities for FY25

## Office of Administration

FY25 – updated 7/15/2024

### VISION

*Excellent customer service, every time.*

### FOCUS AREAS

#### Team Member Focus

Recognize superior performance, provide opportunities for growth and engage our team members

#### Customer Focus

Provide quality solutions to enable our partner agencies to deliver impact to their customers

#### Culture of Excellence

Improve how we work by using standardized tools and training while promoting a culture of continuous improvement

#### Technology Solutions

Looking to the future, implement technology that will improve work and provide a better customer team experience

### STRATEGIC INITIATIVES

#### 1A. Talent Transformation Services Project:

Implement the Talent Transformation Services Project to improve the team member experience.

#### 1B. New Employee Orientation:

Transform New Employee Orientation (NEO) to enhance OA's onboarding experience.

**NEW DECISION ITEM****RANK: OF 1****Budget Unit Various****Pay Plan****Bill Section Various****DI# SWO.GV.002**

The FY 2026 budget includes appropriation authority for a time of service adjustment plan for full-time state employees. This would provide a 1% salary increase for every two years of continuous state service and would cap out at 10% for 20 years of service. This excludes job classes with statutorily-set salaries, the Departments of Transportation and Conservation, and certain job classes within the Missouri State Highway Patrol, who have existing time of service pay structures. State employees working in 24/7 facilities that already have this time of service pay plan will get a one percent cost of living adjustment.

**4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)**

The appropriated amounts for the Fiscal Year 2026 pay plan are based on current time of state service for all full-time employees.

**5. BREAK DOWN THE REQUEST BY BUDGET ACCOUNT CLASS, JOB CLASS, AND FUND SOURCE. IDENTIFY ONE-TIME COSTS.**

**2. CORE DESCRIPTION**

The Commissioner's Office provides centralized services to the department, including legislative and policy issue research and tracking, legal counsel, and budget preparation and tracking. The statewide Office of Equal Opportunity (OEO) as well as the newly created Prescription Drug Monitoring Program (PDMP) are also assigned to the Commissioner's Office. The core budgets for OEO & PDMP appear as separate requests.

**3. PROGRAM LISTING (list programs included in this core funding)**

**2. CORE DESCRIPTION**

The Office of Equal Opportunity (OEO) works to ensure that there is no discrimination in the executive branch of Missouri government against persons on the account of race, color, religion, national origin, sex, ancestry, age, sexual orientation, veteran status or disability; not only in employment practices but in the provision of services and the operation of facilities. OEO is responsible assisting all departments of the executive branch of state government with the development of workforce diversity plans and monitoring these plans to ensure equal employment opportunities and compliance with applicable antidiscrimination employment laws. Additionally, OEO supports supplier diversity in state contracting and procurement by operating the Minority, Women and Service-Disabled Veteran Business Certification Programs (MBE/WBE/SDVE) pursuant to RSMo. Sections 37.020 and 37.023, and Section 34.074. These programs certify businesses to participate in state contracting opportunities, thereby supporting the growth of small businesses and economic development for the State of Missouri.

### 2. CORE DESCRIPTION

The Prescription Drug Monitoring Program (PDMP) was established through new legislation during the 2021 regular session for the purpose of overseeing the collection and use of patient dispensation information for prescribed controlled substances. A newly created Prescription Drug Monitoring Task Force will oversee this program with technical, legal, and administrative support being provided by the Office of Administration. This program also requires the joint oversight task force to enter into a contract with a vendor through a competitive bid process for operation of the prescription drug monitoring program. The vendor shall be responsible for the collection and maintenance of patient dispensation information.

**2. CORE DESCRIPTION**

This core is for a statewide electronic monitoring pilot program. The program's objective is to monitor individuals subject to pre-conviction or post-conviction through a check-in system that the supervising agency or circuit can access through a secure web-based platform. The program should also establish exclusion zones and compliance levels through the platform and generate reports with relevant information for individuals monitored through an industry standard end to end encryption and redundant back-up for data.

### 2. CORE DESCRIPTION

SCR 7 created the America 250 Missouri Commission. This section included one-time funding to plan, promote, and implement public celebrations and commemorations of the 250th Anniversary of the Declaration of Independence and the 250th Anniversary of the United States of America. 2026 marks the 250th anniversary of our nation's founding. To observe this momentous occasion, the U.S. Semiquincentennial Commission was created to encourage Americans to remember our past, celebrate the present, and look forward to a promising future. SCR 7, which was passed during the 2023 legislative session, creates the America 250 Missouri Commission. The Commission's principal purpose is to plan, promote, and implement public celebrations and commemorations of the 250th Anniversary of the Declaration of Independence and the 250th Anniversary of the United States of America. 2026 marks the 250th anniversary of our nation's founding.

To observe this momentous occasion, the U.S. Semiquincentennial Commission was created to encourage Americans to remember our past, celebrate the present, and look forward to a promising future. The U.S. Semiquincentennial Commission was established by Congress (P.L. 114-196) to inspire Americans to participate in the 250th anniversary of the founding of the United States. The Commission is partnering with public and private entities across the country to make America250 a once-in-a-lifetime experience for all Americans with the goal of orchestrating the largest and most inclusive anniversary observance in our nation's history.

**4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)**

Support for this commission is to be provided by the Office of Administration (OA). OA assumes one additional team member will be needed to support this commission and also requests additional E&E funding to support this position which includes: equipment, supplies, furniture, connectivity, program and software licensing, etc. The resolution also provides for reimbursement of the 15 members actual and necessary expenses. This item also includes a request of \$350,000 for expenses associated with hosting the celebration. According to SAMII, expenditures for the Missouri Bicentennial Celebration were \$350,000 in FY 2020, FY 2021 and again in FY 2022.

The Governor's recommendation is for the Office of Administration to work with the Division of Tourism through a memorandum of understanding to administer this program.

### 2. CORE DESCRIPTION

This core request is to fund the operations of the Division of Accounting. The Division provides a central payroll processing function, central accounting service, and a statewide financial reporting function for the State of Missouri. This includes producing payroll ACH/checks and vendor payments. The Division also prepares and distributes comprehensive, accurate and timely financial reports for the State of Missouri. In addition, the Division is responsible for monitoring and oversight of the employee benefits programs; providing support and oversight for issuance of debt; and oversight of all Office of Administration payments. The Division is also responsible for the administration of social security coverage for state and political subdivision employees. In addition to the primary operations of the Division of Accounting, the State is in the process of replacing SAM II, the State's legacy Enterprise Resource Planning (ERP) with a new ERP system as discussed in HB Section 5.045. This funding request is for additional FTE needed to implement the entire statewide solution including budget, procurement, payments, fixed asset tracking, budget control, grants management, cash management, recruiting and onboarding employees, employee talent management and training, employee time and leave, compensation and benefits, payroll, tax compliance, and extensive reporting capabilities. Successes thus far have included the statewide launch of the budget module, vendor registration, and employee learning. Additionally, basic employee records have been established in MOVERS for all employees. This request is for technical experts related to budget, finance, procurement, and IT necessary to ensure a successful implementation. Tasks required for implementation are numerous. A short list includes: system design and configuration, workflow development, extensive testing, data migration, data reconciliation, training, change management and communication, some process redesign to take advantage of new features, and audits of system security.

This new request is for staff to support the MOVERS statewide accounting Finance/HR system after implementation. Unlike our previous accounting system, will be receiving quarterly updates of functionality. We must regression test the system before each upgrade to ensure continued functionality. We need to also test and implement the new functionality and maintain the security and workflows of the system. After implementation, OA will also need to set up a help desk to support users in the new system. The new MOVERS system has the potential to increase the efficiency of the administrative functions however, there is a significant administrative workload to maintain user access, efficient workflows, and system settings.

### 2. CORE DESCRIPTION

The Division of Budget and Planning (BAP) exists to improve the lives of Missourians by improving government through providing analysis, resolving problems, and embracing improvement.

Specifically, to aid in decision making, BAP provides analysis and data to the Commissioner of Administration, Office of the Governor, General Assembly, and state agencies regarding fiscal and other policies.

BAP's primary duties include: providing support to the Governor in the creation of the Governor's recommended budget, and serving Missouri taxpayers by implementing the final budget in a balanced and efficient manner. Additionally, BAP provides economic forecasts, state demographic services, legislation monitoring, and coordinates the executive agencies in addressing statewide issues.

What's Going On?: Without critical state/national economic data, and information regarding budgeting best practices, Budget and Planning cannot successfully fulfill its role in helping to build and implement a constitutionally balanced budget.

What Is The Problem?: A variety of private vendors and national associations provide this data. Regrettably, the cost of such information has risen significantly in the last ten years. From FY13 to FY23, the cost to access such budget and economic data rose 42%.

Additionally, the costs of assembling budget books for General Assembly hearings have increased both generally and in the sheer numbers of pages printed due to an influx of new funds in recent years.

Where B&P Is Now: Unfortunately, Budget and Planning's appropriation to pay for the above costs is actually smaller in FY25 (\$71,913) than in FY09 (\$85,935). While B&P has successfully managed within its budget to cover these costs over the past 14 plus years, costs have risen to where B&P has to rely on unpredictable staff vacancies to cover both these and general division operating costs.

B&P's Request: B&P seeks funds to cover post FY13 cost escalations as well as anticipated increases.

**4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)**

The requested amount is based on a 42% increase in economic data fees and dues between FY13 and FY23 as well as an 86% increase in budget book printing costs.

### 2. CORE DESCRIPTION

Section 37.130, RSMo., provides that the demographic unit in the Office of Administration "shall provide requested assistance in all reapportionment matters". The United States census occurred on April 1, 2020. The Missouri State Demographer prepared census, geographic, and election databases for reapportionment efforts following the census. This core provided temporary staff and resources to support multi-year reapportionment activities including software and equipment purchases, training, data compilations, setting up a redistricting office, creating and maintaining a website for public use, coordinating public meetings and travel, filing draft and final plans with the Secretary of State, making maps of new districts available to elected officials, and providing data and support in the event of post map making legal challenges.

In FY25, with district map drawing duties complete, the amount needed for on-going census/redistricting software licenses is being transferred to the Budget & Planning core. The amounts used for non-licensing purposes was core cut in FY24.

### 2. CORE DESCRIPTION

This core request is to fund centralized, enterprise-wide IT services for the 15 different departments that are supported by the Office of Administration, Information Technology Services Division (ITSD). The consolidation of these resources along functional units within ITSD has allowed the State to leverage knowledge sharing and collaboration among IT professionals, and reduce costs through aggregation of like contracts & services and volume purchasing options.

This request is for ongoing funding related to the Digital Government Transformation project funded by ARPA. The vision for Digital Government Transformation is to provide a world-class experience for both citizens and businesses who interact with the State of Missouri and provide best in class cyber security to support that experience. To accomplish this vision, ITSD is partnering with agencies to innovate the user experiences and optimize workflows through journey modernization using a unified online portal and leveraging strategic enterprise tools within the IT infrastructure. ITSD is also adding additional security layers to protect citizen data and identity. ITSD has had great success creating and implementing a strategy based on a unified platform. This strategy has helped create cost effective solutions for Agencies with much greater speed and effectiveness. Having common solution platforms for Agencies also improves consistency and reduces build time, support, and maintenance complexity. Expanding the use of these tools across Agencies will further improve efficiency, decrease overall costs across the state, and provide a better experience for citizens and businesses while maintaining the highest level of security.

The tools put into place to support this secured, unified platform strategy have annual subscription costs that ITSD must pay or all the systems will have to be shut down. ARPA was used for the initial implementation; now ongoing costs need to be supported. The State of Missouri has implemented a lot of new technology and enhanced customer and citizen experience over the last several years. The introduction of new technology and higher expectation of seamless user experience is introducing a greater need for new cyber security tools, training, and support.

In FY23, there were 79 FTE transferred from ITSD's core budget to HB20. In the Department Request stage, OA requested these FTE be added back to ITSD as part of this New Decision Item Request. The Governor's Recommendation included a core transfer of 43 FTE from ARPA back to the ITSD operating core. The remaining FTE will need to be transferred back from ARPA to OA-ITSD in FY27.

**4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)**

Costs included in this request:

1. Ongoing maintenance and support for ServiceNow which has already been implemented (\$3,563,266)  
ServiceNow is a low code/no code platform which offers digital workflows to streamline business operations and improve employee productivity. Agencies can automate routine tasks, integrate various business processes, and gain real-time insights through dashboards. It is used by thousands of organizations world-wide to drive digital transformation. Improved integration across IT capabilities also reduces cost and complexity. This platform has been chosen as the strategic solution for both IT and Agency solutions.
2. Ongoing maintenance and support for Mulesoft which has already been implemented (\$1,577,367)  
MuleSoft provides integration solutions for connecting applications, data and devices. It allows business to integrate on-premises and cloud-based system without extensive coding. It uses Application Programing Interfaces (APIs) to facilitate seamless data exchange between disparate systems. The MuleSoft platform tools aid in designing, building, and managing the lifecycle of the APIs.
3. Ongoing maintenance and support for Workforce User LifeCycle Management (\$3,000,000)  
This was implemented in FY24 and will need funding for ongoing costs. State of Missouri workforce user account lifecycle management automation is required to securely and efficiently manage onboarding and off-boarding for our application portfolio. We can no longer effectively meet end user lifecycle management regulatory compliance, security best practice, and service level agreements at scale without automation. With over 2000 applications servicing the consolidated agencies, there is no standard process to request/approve/assign/modify/terminate/audit access. The regulatory and security requirements to manage the end user lifecycle management process (request, approval, assignment, modification, termination, auditing) is not satisfactory. This security weakness was observed and concluded to be present during our security review for the Enterprise ERP MOVERS project and other Digital Government Transformation project.
4. Security - Data Loss Prevention (\$3,500,000)  
This funding is needed to address an audit finding; prevent potential data breaches, leaks, or misuse; Provide real-time monitoring and analytics capabilities of how data is being utilized; and to Enable security teams to quickly identify and respond to potential threats.
5. Security – Network Access Controls (\$462,065)  
Funding is needed to address an audit finding; to prevent unauthorized devices from connecting to the state network; Ensure only managed devices that have been properly patched and follow best security practices can connect; detects shadow IT; and provides real-time monitoring of devices attempting to connect to the network to help detect malicious or suspicious activities.
6. Application Development Secure Coding Training, Certification and Tools (\$425,445)  
Secure coding training raises awareness of the impact and enables the prevention of vulnerabilities in source code. Developers are trained in secure coding practices for specific coding languages and frameworks. In addition to our current vulnerability scanning tools, we plan to leverage artificial intelligence (AI) code security assistants (ACSAs) within our existing scanning products to help developers remediate security vulnerabilities in code more quickly.
7. Security -Secure Access to Cloud Resources (SDWAN) (\$3,466,667)  
Would replace obsolete network design and plays a big part in our network modernization effort. Allows 800+ remote sites direct access to internet services without having to come back to our primary datacenter, enhancing user experience. Services like M365 will run more efficiently. Provides a modernized and centrally managed security stack to provide protection for users connecting to the cloud through software defined wide area networks (SDWAN). It would provide alternate routes to get to services if communication with the primary data center was lost. It would provide enhanced logging and monitoring of traffic leaving remote sites to detect, prevent and alert security staff of malicious activities.

8. Security -Network Segmentation (\$4,041,500)

Network segmentation was identified as an area of improvement through multiple tabletop exercises. Network segmentation provides a way to isolate devices if they were to be infected with ransomware. Devices not segmented can talk freely between themselves today giving ransomware an avenue to traverse across the network if endpoint protection was not effective at catching it. It also provides firewall capabilities at each endpoint which greatly enhances our zero-trust capabilities and enhanced network monitoring capabilities to detect malicious activities at each endpoint. Network segmentation will allow us to lock down the most critical assets to only the services necessary to perform business and prevent accidental misconfigurations from opening resources that should not be allowed.

9. Security – Identity Validation (\$1,080,000)

Identity validation provides authentication and authorization protections for employees and citizens who use State resources. The identity validation tool implemented provides 4 main functions to provide optimal security to citizen using State Resources 1) Anti-Fraud Protection protects services from being provided to unauthorized people through malicious means such as identity theft and impersonation. 2) Identity Resolution distinguishes that a user is who they say they are by validating them against specific sources of evidence such as passports, drivers' licenses, or other forms of official documentation. 3) Liveness Detection ensures that a real person is trying to authenticate by checking facial images, videos to prevent fraudulent activities and 4) Biometric Verification utilizes things such as fingerprint or facial recognition as part of multi-factor authentication (something you are).

New Program

## 3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.

A key management system (KMS) is necessary and forms the basis of all data security. A KMS system manages the keys used to encrypt and secure all data across the organization. Implementation of a KMS system would ensure that keys are stored in centralized location and prevent unauthorized access to the keys that would be used to encrypt and decrypt our sensitive and regulatory data. It allows for administrators to remotely disable keys and issue new ones as needed. A KMS system is necessary to build out key management automation. In order to address regulatory compliance, a KMS system would allow for keys used to authenticate into systems to be rotated out to address compliance rules. The state manages multiple cloud and on-premises data centers today and deployment of a centralized key management system would greatly enhance the security while simplifying management of encryptions keys from a single platform.

From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)**

Pricing was determined by obtaining budgetary quotes from key management system (KMS) vendors. Cost is based on around \$1,020 per client to cover 1000 clients. A client is any application or device that would utilize keys for encryption. Staffing would be needed to build out and maintain the automation (2 staff members) to support thousands of application that utilize key management. Additional staffing would be needed for management of a key management system(2 staff members). KMS management would be responsible for provisioning keys that the automation team would automatically provision to the appropriate clients.

**2. CORE DESCRIPTION**

One time funding was originally approved in FY23 for a statewide customer service program. This core included one-time funding that was added again in FY25 to continue operating the SHARE MO Citizen Engagement Program. The SHARE MO program is currently in fourteen (14) of our seventeen (17) executive agencies and some elected officials' offices. This provides these agencies with ways to listen to citizens, understand their experiences, and make changes based on feedback.

The Department of Elementary and Secondary Education (DESE) is responsible for the statewide distribution of over \$5 billion in state funds to Missouri's 560 public school districts and charter schools statewide. The DESE Foundation Formula calculation system was written in 2006 and is used to calculate the payment of these funds. This system calculates five separate statutorily required payments which are the Foundation Formula State Aid (163.031, 160.415, 162.1060, 162.935, 163.071, and 163.073 RSMo), Classroom Trust Fund (163.043, RSMo), Transportation State Aid (163.031, RSMo), Small Schools (163.044, RSMo), and the Proposition C (144.701, RSMo). This system calculates the annualized and monthly payment amounts owed to each district and charter school as well as charter sponsors for the five types of State Aid payments. The monthly payment amounts are then pulled into the DESE Payment Management System (PM) to interface with the SAM II system to make monthly payments to the districts and charter schools.

These five payment calculations are all unique to Missouri per statute. There are more than 41 different processes that must be completed in order to calculate payments each month. Each computation process is comprised of thousands of calculations involving a large amount of unique data elements that are pulled from 4 different DESE systems in order to perform the correct calculations. The School Finance System stores hundreds of calculation components in over 49 different tables for the 560 public school districts and charter schools plus 7 charter sponsors.

The DESE Foundation Formula calculation system currently lacks an intuitive design and requires heavy involvement from OA-ITSD to make basic routine edits as well as extensive manual data verification. The legacy system has met its limitations and the complexity to support or enhance causes delays in functionality and the capability to maintain. Additionally, it is very expensive to make modifications to this old system as changes are required or new legislation is passed each year. Few state employees know enough about the complexity of this system to address changes and ensure that said changes do not cause other, unintended consequences. Without this system rewrite, the state is at risk of being unable to accurately distribute over \$5 billion taxpayers' dollars statewide to the 560 school districts which would impact 898,095 pre-kindergarten through 12th grade students.

This project will ensure that the new system contains necessary override screens, comment storage, and components to provide proper automated data verification. It will also make the system responsive, user-friendly, updated technologically, and more secure. The rewrite would provide business owners the functionality to maintain easily, automate data verification, and provide the capabilities for annual updates resulting in future cost savings by alleviating the need for OA-ITSD resources.

**4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)**

DESE plans to start the vendor procurement process in FY 2025 with an award in July 2025 upon approval of funding. This will allow for implementation to be completed by March 2027. The cost is based on vendor estimates from previous research done over the last couple of years for systems of this size and scope and the known fact of implementing within the identified ITSD enterprise architecture standards.

**Bill Section 5.030**

Department of Higher Education and Workforce Development (DHEWD) system for administering state student financial aid (Financial Assistance for Missouri Undergraduate Students or FAMOUS) is outdated and needs modernization. It has been more than a decade since it was last upgraded, and the java-based technology it was built on has become cumbersome. DHEWD has experienced issues finding developers with adequate experience and skills for that technology. In addition to technology issues, the delivery of postsecondary education has changed dramatically since the system was originally developed and implemented in the early 2000s. Although educational delivery structures, such as non-term-based programming, distance education, and non-credit/short-term credentials, have become mainstream, FAMOUS was built around a traditional 16-week semester. This mismatch creates issues for both students and higher education institutions, as well as challenges for DHEWD staff in administering the current variety of state student assistance programs.

**4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)**

DHEWD conducted an information survey of the systems used by other states and the costs involved in developing and implementing those systems. For example Nelnet, Inc. offers a product called GrantPro. GrantPro is a full-service, web-based financial aid management system that allows agencies and postsecondary institutions to award, pay, and manage financial aid program funds. Another possible source would be Goldbridge Partners, Inc. They offer a product called GoldFrame 7.0. This product provides a variety of customizations to meet the needs of the states and institutions they serve. Finally, a locally developed system, likely using the ServiceNow platform, is also a viable option for this project. The survey resulted in wide variety of options and costs, primarily due to the differences in programs offered by each state. Based on the survey feedback, the estimated cost for this project was determined to be \$1.2 million.

DNR SRF System

**Bill Section 5.030**

The Department of Natural Resources currently uses the State Revolving Fund (SRF) system to track financial and project data to report to the U.S. Environmental Protection Agency (EPA) for SRF loan and grant programs. The SRF system is a shadow system that will not interface with the new MOVERS ERP financial system and, therefore, needs to be replaced for continued use and expanded to meet new federal reporting requirements. Through this New Decision Item, the department is requesting the authority to procure services for this project, up to \$2,013,744 currently available in Funds 1649 and 1568 for this purpose.

The Clean Water (CW) and Drinking Water (DW) SRF programs operate through a cooperative federal agreement with the U.S. Environmental Protection Agency (EPA) and are managed by the department. The CWSRF is managed in accordance with the Clean Water Act Section 606 and the operation and management of the program is directed by state regulations 10 CSR 20-4.040, 10 CSR 20-4.041, and 10 CSR 20-4.050. The DWSRF is managed in accordance with the Safe Drinking Water Act and the operation and management of the program is directed by state regulations 10 CSR 60-13.020 through 10 CSR 60-13.030.

The SRF software is an accounting and project tracking software used by the department for a variety of small water pass through programs as well as the Drinking Water and Clean Water State Revolving Funds, which have a combined \$1.9 billion net position. A new SRF system is needed not only to allow the system to function with MOVERS ERP but also to allow for more efficient processes and updated tracking and reporting, which EPA now requires. Every state has a SRF and several companies have developed customizable off the shelf systems to meet their specialized needs. The newer systems are more efficient, easier to use and automate many tasks now handled outside the system manually by the team, including cash flow modeling.

The current SRF system was developed 25 years ago. The system performs the basic functions it was designed to do but requires frequent maintenance by OA-ITSD application development to continue operating. It also lacks the advanced functionality currently available from applications serving other state SRF programs. Adoption of a modern system with automation features used by other states would eliminate a significant number of financial processes now handled manually outside the system with considerable efficiency gains. A modern system would allow centralized project management for more than 300 projects currently managed outside the system by team members using various tools that offer little transparency to customers or colleagues. Further, a new system can interface with federal systems the state must report through, saving the team significant double data entry time.

Without the updated SRF system, essential water infrastructure projects will go unfinanced or will be unduly delayed. Delays in reimbursing a community for incurred costs would be detrimental by causing a financial hardship to not only the community borrower, but also to the engineers and contractors working on these projects. Results would likely include work stoppage, contract disputes, and payroll disruptions. Without the update, the current system will cease to function with the switch to MOVERS ERP. The SRF system timeline includes a Go Live in January 2026, six months after the MOVERS financial Go Live in July of 2025. The department and OA intend to work together to develop an interim solution to continue to work with our existing system after MOVERS goes live until the new SRF system is ready.

**4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)**

Funds 0649 and 0568 currently have \$2,013,744 available and designated for a new SRF system.

The department is aware of two companies that provide SRF-specific systems for states. The company that developed our current systems is one of those companies. This company has since developed a new, improved system that has been implemented by more than 15 other state SRF programs that may be the only in-scope solution because it includes the cash flow model function.

This project was presented to and approved to proceed by the CITGC (Cabinet IT Governance Council) on 8/30/2024.

**2. THIS REQUEST CAN BE CATEGORIZED AS:**

Cost to Continue

**3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.**

This funding provides ongoing licensing and support for Professional Registration's new e-licensing system, MOPRO. This system was implemented with ARPA funds and will be paid for through the Professional Registration Fees fund (1689). The fund needs appropriation authority to make the payments. The new system will empower applicants and licensees to have more control over their own future by vastly improving access to their application status and the ability to enter their own data into the system. This project enables licensees to have access to their data 24/7/365 days a year, allowing them to obtain and renew their license faster and get them into the workforce sooner. This project supports one of Governor Parson's top priorities of workforce development to meet the needs of the future.

			Budget Class	FTE	GR	FED	OTHER	TOTAL	Explanation
Core Reallocation	CRA.35B.001	13839	EE	0.00	0	2,000,000	0	2,000,000	DMH federal EE spending was evaluated for the past four years. ITSD flexed into DMH's EE appropriation in all four years. In FY24, the flex amount totaled \$2.2 million dollars. An increase to this appropriation authority will help reduce the need for future flex. The shortfalls were primarily the result of increases in equipment costs, software and contracting. Due to expiring grants, DOLIR requires an appropriation increase in federal fund 0165 to utilize their UI Base Grant. This grant will cover the UI Interact ongoing charges. Prior grant funding was not housed in fund 0165.

Missouri Veterans Commission (MVC) runs seven skilled Veterans Homes which are required under 38 CFR 51.200(f) to "have and maintain a resident call system. The nurse's station must be equipped to receive resident calls through a communication system from resident rooms and toilet and bathing facilities." MVC's current nurse call systems are approaching or have surpassed their full life cycle and need replaced. Some system parts are no longer available to purchase in order to fix/replace broken components. This is leading to several cases of documented malfunctioning.

There are seven Veterans Homes run by MVC. Below is the cost breakdown per home to install and maintain the new nurse call system.

\$18,000 per facility for software. Related hardware will be purchased and installed by FMDC from the Capital Improvements budget. Software costs will be annual and ongoing.

Training on how to use the software and new equipment will be necessary for all staff within the seven Veterans Homes. The estimated cost of training is \$228,900 and will be one time.

**Bill Section 5.030**

The current Electronic Health Records tool contract expires in September 2026. MVC must re-bid the Electronic Health Record system to continue to provide and manage high-quality care to Missouri's Veterans while decreasing costs and inefficiencies. The product should be cloud-based and have emergency backup servers. MVC reviewed options among State Veterans Homes across the nation and received business needs as well as possible vendor options for use within their skilled nursing settings. Many of the provided vendors are also utilized in private nursing homes in Missouri.

MVC anticipates rebidding and awarding the vendor through the Request for Proposal (RFP) process. The solution MVC will acquire is a commercial off-the-shelf (COTS) product designed for the skilled nursing care sector.

**4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)**

The Missouri Veterans Homes have been utilizing an active NASPO contract for a transitional E.H.R system, due to its previous E.H.R becoming antiquated with the discontinuation of MS Silverlight. This caused the inability to go to the market for bid, due to the lack of time for bidding and implementation before the expiration of services. The NASPO contract does not currently allow MVC to properly performance manage the current E.H.R vendor, who was at the onset of implementation, an acute setting electronic health record (hospital based). Workarounds have been given in many instances rather than full solutions. This causes our health records to be slow for staff to use and require duplicate entry of information and medication administration errors due to slow usage of the MAR/TAR. It also causes plans of care to show outdated information. These issues then lead to quality management issues and make it incredibly difficult for MVC to provide safe and effective care to our Veterans.

Estimated costs broken down by year:

FY25: \$356,934.21

FY26: \$1,070,804.52

FY27: \$178,467.40

			Budget Class	FTE	GR	FED	OTHER	TOTAL	Explanation
Core Reallocation	CRA.35B.004	13846	PS	0.00	0	(400,000)	0	(400,000)	DESE federal PS funds have required flex for the past two years. An adjustment of 400,000 in federal authority should prevent the need for flexing in the future. Application Developer time coding is attributed to the increased federal spending for DESE.
Core Reallocation	CRA.35B.001	13847	EE	0.00	0	(4,000,000)	0	(4,000,000)	DMH federal EE spending was evaluated for the past four years. ITSD flexed into DMH's EE appropriation in all four years. In FY24, the flex amount totaled \$2.2 million dollars. An increase to this appropriation authority will help reduce the need for future flex. The shortfalls were primarily the result of increases in equipment costs, software and contracting. Due to expiring grants, DOLIR requires an appropriation increase in federal fund 0165 to utilize their UI Base Grant. This grant will cover the UI Interact ongoing charges. Prior grant funding was not housed in fund 0165.

			Budget Class	FTE	GR	FED	OTHER	TOTAL	Explanation
Core Reallocation	CRA.35B.001	13845	EE	0.00	0	2,000,000	0	2,000,000	DMH federal EE spending was evaluated for the past four years. ITSD flexed into DMH's EE appropriation in all four years. In FY24, the flex amount totaled \$2.2 million dollars. An increase to this appropriation authority will help reduce the need for future flex. The shortfalls were primarily the result of increases in equipment costs, software and contracting. Due to expiring grants, DOLIR requires an appropriation increase in federal fund 0165 to utilize their UI Base Grant. This grant will cover the UI Interact ongoing charges. Prior grant funding was not housed in fund 0165.

### 2. CORE DESCRIPTION

Under Chapter 34, RSMo, OA is responsible for the procurement of supplies, equipment, and services for state departments. OA is currently implementing a statewide eProcurement system. New statewide contracts now include language that requires a one percent administrative fee on all transactions under those contracts. Contractors are required to report transaction totals for the given quarter and submit a check/electronic payment to the State of Missouri. This practice is consistent with the other states which have implemented e-procurement systems. The revenue generated by the one percent fee is to be deposited into its own fund to improve transparency and tracking. The revenue collected into this fund will be used for licensing, maintenance, support and activities related to the eProcurement system.

### 2. CORE DESCRIPTION

This funding is necessary to replace SAM II, the State's legacy Enterprise Resource Planning (ERP) system that was implemented in 2000. The system is critical and supportive to all segments of State government. All payments from the State Treasury touch SAMII. Critical components with statewide impact include: Employee payroll processing, vendor payment processing, statewide budgeting, budget and cash controls, annual tax reporting (W2s and 1099s) capital asset tracking, data warehouse capabilities, and federal grant tracking. SAM II is written in COBOL, the staff with knowledge to support the system are dwindling both at the State and at the Contractor. Few changes are possible with the exception of required annual patches to produce year-end tax forms. Maintenance payments are increasing annually while the support is continuing to decline from the Contractor as their knowledgeable retire. The risk of key State staff retiring continues to increase. It is possible that the legacy system will not be able to be certified with each new version of Microsoft and IBM infrastructure that is required for the State's security controls. SAM II is a critical enterprise-wide system for bonds, vendors, payroll and payment controls.

## CORE DECISION ITEM

**Office of Administration**  
**Personnel**  
**CORE - Operating - Personnel**

**Budget Unit 350047B**

**Bill Section 05.055**

The Division of Personnel is responsible for providing programs and services to promote recruitment, retention, and development of top talent across the State's over 44,000 team member enterprise. The division oversees the implementation of state personnel laws that impact the State of Missouri workforce. In collaboration with Human Resources professionals from each of the 17 executive departments, the division develops and carries out initiatives designed to provide a productive and engaged workforce. High level responsibilities:

- Educates state agencies on compensation best practices to attract and retain talent team members. This is done in coordination with Budget & Planning and OA's Administration.
- Administers the Uniform Classification and Pay System (UCP).
- Provides accurate, and comprehensive talent management metrics for statewide decision-making. This includes acquisition, retention, and development data, and pay, leave, and reporting information on the UCP system pay plan.
- Oversees the implementation of state personnel laws (Chapter 36, RSMo) and regulations (i.e. leave administration, overtime, etc.).
- Provides guidance to state agencies regarding federal and state level employment laws.
- Provides workforce reports and assistance with the SAM II HR/Payroll System.
- Ensures personnel transactions are in compliance with state personnel law.
- Facilitates technological systems and programs for performance management, training, and professional development.
- Administers statewide rewards and recognition programs.
- Coordinates statewide team member discount programs.
- Provides human resource support for the Office of Administration.
- Provides leadership and innovation for activities regarding the Talent Acquisition of new team members. This includes technology to support hiring processes through our applicant tracking system, MO Careers. Initiatives also include direction around best-in-class recruiting approaches and new team member onboarding.

### 2. CORE DESCRIPTION

The state operational excellence program, Show Me Excellence, is driving change across state government to support the Governor's transformation objective for Missouri state government: 'To meet citizen expectations so that we are as good as any organization'. The operational excellence team has created a framework to sustain agency operating rhythms for strategic planning and performance management, as well as capability building for state team members so that they can improve how we serve Missouri citizens. We do this by:

- o Lead and coordinate state level operational excellence efforts in conjunction with all department operational excellence leaders.
- o Lead and coordinate state level operational excellence initiatives as directed by the Governor's Office and the Commissioner of Administrations, such as efforts to improve Customer Service Centers across state government.
- o Develop and deliver trainings to support continuous improvement and problem-solving skills for state team members in any role, such as the Show Me Excellence White Belt, Yellow Belt, and Green Belt trainings. The annual Show Me Excellence Summit, that is hosted by the Center of Excellence, brings this community together yearly to learn together, hear from industry and other government leaders, and share best practice.
- o Host the annual Show Me Challenge competition which allows state team members to pitch their ideas to improve how we serve the citizens.

**2. CORE DESCRIPTION**

The Division of Personnel is responsible for providing programs and services to promote recruitment, retention, and development of top talent across the State's over 44,000 team member enterprise. In an effort to enhance the team member journey, the Division extracts valuable insights from workforce data and equips leaders across the State to take informed action. People analysis allows the Division to assess organizational culture to address turnover and retention challenges, uncover factors contributing to employee disengagement and identify high-impact areas and opportunities for talent development and team engagement. Data analytics provide valuable insights that enable informed decision-making and shape the future of training, hiring, and retaining the workforce.

**2. CORE DESCRIPTION**

The core request is for funding to promptly refund the vendor's bid or performance security that was deposited into the State Treasury during the procurement process. Checks are received from vendors as bid or performance security and deposited into the State Treasury. Interest earned on these deposits goes directly into General Revenue. After the bids are awarded or the contractor has performed, these deposits must be promptly refunded to the vendor or contractor. These are refundable deposits and not payments to the State

## 3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.

The Mansion Donation appropriation provides authority to spend donated funds in support of maintenance, renovations, and operation at the Missouri Governor's Mansion and grounds. In the last ten (10) years, the amount that has been donated has increased to over \$450,000. During this same time frame as expenditures have been made from the appropriation, the amount available continues to increase. As of the end of FY 2024, the available amount is \$183,776. If no additional funds were deposited, it would take over four (4) years to fully expend the available balance. This new decision item proposes to raise the appropriation authority to \$120,000 from the current \$60,000. Additional appropriation authority is necessary to allow the cash in the fund to be utilized to support the Governor's Mansion.

### 2. CORE DESCRIPTION

**CORE DECISION ITEM**

**Office of Administration  
Facilities Management, Design and Construction  
CORE - Asset Management**

**Budget Unit 350061B**

**Bill Section 05.085**

The mission of the Division of Facilities Management, Design and Construction (FMDC) is to provide a superior workplace environment for state occupants and their visitors and protect the state's investments in property assets. FMDC strives to provide agencies with the information and resources that will support their development of high-performance workplaces -- workplaces that will meet agencies' business needs and can be readily adapted to changing workplace practices and strategies. The aspiration of FMDC is to deliver best-in-class capital solutions. FMDC is comprised of the following units: Facility Operations Unit • Provides for complete building operations including maintenance, grounds keeping, security, housekeeping, conferencing, and special events for public and private tenants in state-owned facilities and oversight of contracted facility services in leased facilities. • Provides maintenance management and grounds keeping services for institutional facilities of the Department of Elementary and Secondary Education, Department of Mental Health, Department of Social Services, and the Department of Public Safety's MO State Highway Patrol. • Provides monitoring of energy consumption in state facilities and develops and implements programs to help reduce energy consumption in stat facilities. Coordinates with SEMA during disaster response and recovery efforts.

**Space Planning Program**

- The Space Planning Program (SPP) maximizes space utilization and manages rent allocations, in over 3.78M square feet of state-owned facility space and over 8M square feet of institutional facility space and 3.23M square feet of leased space (excluding MoDOT, Conservation and Colleges and Universities).
- The Space Planning Program (SPP) provides oversight of HB13 budgeting for leased facilities, state-owned facilities, and institutional facilities.
- This unit provides design services for office space remodels and agency relocations and consolidations.

**Capital Improvement Program and Project Management Unit**

- Provides oversight of new construction, renovations, maintenance and repair projects at state facilities through capital improvement appropriations for all state agencies (excluding MoDOT, Conservation and Colleges and Universities).

**Bill Section 5.085**

The Department of Social Services Division of Family Support (DSS FSD) in conjunction with the Office of Administration Facilities Management, Design and Construction (OA FMDC) requests this funding for new space needs for a corresponding NDI in the FY26 DSS budget that is requesting 220 FTE.

The Department of Social Services, Family Support Division (FSD), is in need of additional FTE to support the delivery of timely and accurate benefits to Missouri citizens due to increased caseloads. Staff are cross-trained to process applications, renewals and support the in-house call center for all benefit programs administered by FSD so that staff can be utilized to full capacity. In addition, FSD also operates 129 Resource Centers statewide, with a presence in all 114 counties and the City of St. Louis, which allows individuals the opportunity to be served face-to face. The additional staff are needed to ensure that the agency is compliant with federal and state requirements for timely processing and accuracy rates and maintains a reasonable wait time in the call centers and Resource Centers ensuring Missourians are being provided timely services and the agency avoids federal penalties or other costly legal actions.

**4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)**

Rent is estimated to be \$21.00 per s/f in the metro areas.  
Janitorial is estimated to be \$2.45 per s/f.  
Utilities is estimated to be \$2.48 per s/f.  
Systems furniture - \$10,000 per cubicle x 200 FTE = \$2,000,000 (one-time)  
220 FTE x 230 sf x \$21.00 = \$1,062,600  
220 FTE x 230 sf x \$2.45 = \$123,970  
220 FTE x 230 sf x \$2.48 = \$125,488  
220 FTE x 230 sf x \$21.00 = \$1,062,600  
220 FTE x 230 sf x \$2.45 = \$123,970  
220 FTE x 230 sf x \$2.48 = \$125,488

Income Maintenance Field Staff and Operations federal fund (FF) reimbursement is based on the IM time study rate of around 57% FF and 43% State Match (GR).

On March 11, 2021, the American Rescue Plan Act (ARPA) was signed into law. In the FY 2023 budget, one of the ARPA projects included in House Bill 3020, Section 135 & Section 610 was for the design and construction of a multi-agency laboratory campus. The construction on the new multi-lab building has begun. FMDC is in need of one (1.00) Specialized Trades Manager to oversee the current Health Lab and monitor the new lab construction as it moves to completion. The position will manage FMDC staff at the new Lab Campus and the existing Health Lab. In addition, we are requesting two (2.00) Specialized Trades Workers. These positions, if approved, would bring the FTE count for this project to six (6.00). There were three (3.00) positions approved in the FY 2024 budget. Upon completion, the building will require a total of six (6.00) FTE.

FMDC needs additional authority to be able to cover all operating costs at this new multi-agency laboratory campus. This laboratory will be approximately 215,000 square feet. FMDC anticipates the need for a total of six (6.00) FTE for this campus when it is complete. In the FY 2024 budget, FMDC received approval for three (3.00) FTE. At this time, FMDC is requesting an additional three (3.00) FTE during construction and operations going forward. The Specialized Trades Manager will manage staff at both the existing Health Lab and the new Lab Campus. The two Specialized Trades Workers will be gaining an understanding of the building and its systems as construction moves forward. There is a corresponding NDI in HB 13 which includes the associated fringe.

Missouri is experiencing an acute shortage of appropriate mental health residential and in-patient placements. Currently, over 200 individuals with behavioral health needs and 600 individuals with intellectual or developmental disabilities (IDD) are unable to access appropriate placement in these settings. Many of these individuals are currently awaiting placement during long and inappropriate stays in settings such as hospitals, jails, shelters, and private providers at a mis-matched level of care, often at a higher cost.

Despite available Medicaid waiver slots for individuals with IDD, these individuals are not able to access care due to direct care staffing shortages. The acute shortage of placements is creating a strain on other systems, particularly hospitals, jails and shelters. As individuals await appropriate services, often their untreated/under treated behaviors escalate resulting in additional crises which further reduces placement options.

One of the strategies DMH is taking to address the acute shortage of space is through reconceptualization of current space resources. DD is proposing to relocate Regional Office staff and Northwest Community Services (NWCS) staff, currently located on the campus of existing Habilitation Centers. This will allow for reconfiguration of the existing space to maximize underutilized placement capacity.

Proposed move includes the relocation of Northwest Community Services (NWCS) staff from the Providence Building, currently on the campus of Higginsville Habilitation Center (HHC), to the local community.

The request was granted in the FY 2024 budget and two of the three locations that needed this funding, Poplar Bluff and Sikeston, have been able to find suitable accommodations. Higginsville was not able to find a location that worked for the staff and clients, so the one-time funding lapsed. They are requesting a reappropriation of the one-time funding in order to modify the space. The cost of the monthly rent and utilities for this location is already in the HB 13 budget. The one-time funding need is \$1,236,000. There is a corresponding NDI in HB 13.

This request includes costs for relocation of 45 staff from a State-Operated facilities to leased or state-owned space.

Space requested for NWCS includes areas for approximately 45 staff who support the Division's direct care workforce and do not have remote or distributed work options, including orientation/training/meeting space for new and existing employees, computer training lab, medication safe-keeping and storage, nursing, break room, supply, restrooms, reception, IT and mailroom areas. Interview/hearing rooms with network availability are requested to accommodate the large number of staff that frequently move between homes and/or NWCS and/or DD Central Office for investigations, quality, clinical or other purposes.

Annual Costs: Facility leasing/utilities/janitorial for NWCS administrative office is estimated at \$257,941 annually.

One-time costs: Wiring and build-out costs is estimated at \$1,236,000.

The Department of Social Services Division of Youth Services (DSS DYS) in conjunction with the Office of Administration Facilities Management, Design and Construction (OA FMDC) requests this funding to allow for relocation of FTE from an office building in the St. Louis area. Originally, the Met Center space was donated to DSS DYS by St. Louis County and DYS was able to utilize the space at zero cost. Recently the building sold and the new owner is requesting rent from DYS, however, there is no funding in HB 13 for this location due to the previous circumstances.

**2. CORE DESCRIPTION**

This appropriation provides authority to spend gifts, bequests, grants, and donated funds in support of the work of the Missouri State Capitol Commission for the restoration and preservation of the Capitol Building, the promotion of the historical significance of the Capitol Building, and the improved accessibility of the Capitol Building. Established in SB 480 (2009), the legislation also established the State Capitol Commission Fund. Any moneys received by the Commission from sources other than appropriation, including from private sources, gifts, donations and grants, are to be credited to the fund and appropriated by the General Assembly. The Commission exercises general supervision and administration of the fund. Appropriation authority is required to allow for the expenditure of any funds that may be received.

### 2. CORE DESCRIPTION

This core represents revolving fund authority that allows the Division of Facilities Management, Design and Construction (FMDC) to make up-front payments for expenses associated with facility management, purchases of materials for facility modifications, tenant services that support agency programs, replacement, and repair costs, and other support services at state facilities when recovery is obtained from a third party. FMDC bills agencies for such costs via the interagency billing process. This pass through appropriation gives FMDC the ability to effectively manage facilities, modification projects and other services by establishing a mechanism to make up-front purchases for materials without reducing appropriation authority for facility operating purposes. FMDC also makes up-front payments for other extraordinary services agencies may require that would otherwise place an unreasonable burden on the regular operating budget of the facility.

### 2. CORE DESCRIPTION

Core funding to support the Division of General Services, a multi-faceted organization providing a number of essential support services to state agencies and to the Office of Administration.

Document Solutions provides comprehensive reproduction services including design, printing, finishing, and quick copy services. Document Solutions also manages central mail services and advises agencies on efficient mailing practices, and provides comprehensive mailing services to most state agencies operating within the Jefferson City area. Risk Management administers the Legal Expense Fund and the workers' compensation program for state employees, purchases insurance as required and advises state agencies on risk management issues. Fleet Management establishes statewide policies governing state vehicle operations and management; coordinates a centralized fleet information system; operates a consolidated car pool serving agencies in the Jefferson City area and serves as a resource for fleet management issues. Fleet Management operates a centralized garage facility to provide mechanical and body shop services for state vehicles based in the Mid-Missouri area. General Services also oversees the State Surplus Property and Recycling programs.

### 2. CORE DESCRIPTION

This core requirement is for funding to Surplus Property and the Missouri State Recycling Program. The State Agency for Surplus Property (SASP) is responsible for the administration of the Federal Surplus Property program. The SASP receives federal surplus property (at no cost to the State other than transportation costs). The SASP transfers the property to eligible entities (state agencies, cities, counties, schools, not for profit health and educational activities, providers of assistance to the homeless and needy, SBA 8(a) program participants, and service educational activities). All expenses incurred by SASP for operating the Federal Surplus Property program are recovered through service charges applied to property acquired by eligible entities. Certain administrative expenses for the operation of the state side surplus property and recycling programs are paid through this appropriation and either reimbursed through the related transfer appropriation or debited to the income from the recycling program. The Missouri State Recycling Program is a self-sustaining program that administers recycling service contracts, coordinates waste reduction strategies to reduce costs associated with waste disposal, and promotes recycling, reuse and sustainable materials management concepts throughout state agencies.

**2. THIS REQUEST CAN BE CATEGORIZED AS:**

Cost to Continue

**3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.**

State Surplus Property helps state agencies dispose of excess state property through the use of various disposal methods such as: online public auctions, redistribution to other state agencies or recycling. Per statute, the moneys received by the state from the sale of surplus property shall be deposited to the Missouri State Surplus Property Clearing Fund. Then, the Missouri State Agency for Surplus Property Program (MOSASP) distributes all funds received in excess of the costs of the sale to the fund which purchased the item sold. Distribution of funds received is restricted to \$3,000,000 in a fiscal year up to the budget authority for the Surplus Property Sale Transfer – 0710 in some fiscal years delaying the process for MOSASP to transfer and for agencies to receive the proceeds from the sale.

**4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)**

Over the past three fiscal years, the appropriation available lapse decreased from 4% in fiscal year 2022 to 1% in fiscal year 2024. The requested surplus property sale proceeds transfer amount is based on projected fiscal year 2025 appropriation authority needed to distribute all proceeds to agencies. Fiscal year 2024 proceeds exceeded available transfer appropriation by \$940,475 and distribution to agencies had to be delayed until fiscal year 2025. The projected fiscal year 2025 appropriation needed is \$3,911,515 and will require a supplemental request. Increasing authority by \$1M will avoid delays in distribution of sale proceeds to agencies in the future.

### 2. CORE DESCRIPTION

Core appropriation authority to make payments from the Property Preservation Fund - a self-funded alternative to the purchase of property insurance for bonded state owned or leased facilities. The State of Missouri is required under bond covenants to purchase property insurance for bonded state buildings to protect the bondholders should the assets backing the bonds, the covered buildings, be damaged or destroyed. Prior to the passage of legislation creating the Property Preservation Fund, over 92.5% of the value of all state property was uninsured. The remaining 7.5% was covered by property insurance. The fund was created to provide coverage to named property for purposes of repairing or replacing state-owned or leased property damaged from natural or man-made events. Only if a loss to a covered building occurs would a payment be made. The fund is estimated to save the state over \$1 million annually in insurance costs. This appropriation would be used to repair or replace certain state-owned or leased property damaged from natural or man-made events. Due to the uncertainty of losses, actual expenditures from the fund may fluctuate significantly from year to year. In any given year there is the risk that a bonded building may be damaged and the state would be liable for the cost to repair or replace the damaged building. Over the past 30 years, there have been only two claims totaling \$281,000 for losses to covered bonded buildings.

### 2. CORE DESCRIPTION

Appropriation authority to purchase required raw materials used in the production of final goods and services to state agencies. State Printing, Vehicle Maintenance, Fleet Management, and Central Mail Services use this revolving fund appropriation to purchase inventory (e.g., paper, parts, fuel, and postage) and obtain outside services to provide products and services to state agencies. This appropriation is also used to purchase goods or services that are rebilled to state agencies, including the cost of vehicles and supporting expenses for the consolidated Jefferson City carpool. The amount of paper, vehicle parts, postage, fuel, services, or supplies acquired is directly dependent on the level of demand by agencies. Funds appropriated for rebillable expenses is used for the purchase of raw materials or goods placed in inventory for later conversion or sale and for services obtained that are necessary to produce final goods or services. Equipment, maintenance, and rebillable coded expenditures required to produce the final goods or services are paid from this appropriation. This appropriation is also used to replace property, damaged through the fault of a third party, to the extent recovery is made from the third party or their insurer. This allows state agencies to replace state owned property that is destroyed through the fault of a third party. Also, under Section 37.452, RSMo, agencies are authorized to use credits from the sale of surplus vehicles toward the purchase of new vehicles through this appropriation.

Over the past three fiscal years, the appropriation had substantial and systemic decrease in available lapse due to increased cost of raw materials, demand for services, and utilization of vehicle sale proceeds credits and insurance recovery funds.

OA Document Solutions and State Fleet Management use the revolving fund appropriation to purchase inventory (e.g. paper, parts, fuel, and postage) and obtain outside services to provide products and services to state agencies (e.g. printing, mail services, vehicle maintenance and repair). The appropriation is used to purchase goods or services that are rebilled to state agencies, including the cost of vehicles, and supporting expenses for the Jefferson City based motor pool (OA Carpool). The amount of raw materials acquired is directly dependent on the level of demand by agencies. The increased cost of raw materials used in the production of final goods and services to state agencies increased the rebillable expenses. Postage purchased to provide mailing services to agencies makes up for 65% of the rebillable expenses and effective July 14th, 2024, the United States Postal Service (USPS) has implemented an approximately 7.8% increase in postage.

Also, under section 37.452, RSMo, agencies are authorized to use credits from the sale of surplus vehicles toward the purchase of new vehicles through this appropriation as well as to use this appropriation to replace or repair vehicles damaged through the fault of a third party to the extent recovery is made from the third party or their insurer. Vehicle credits available to agencies accumulated over the past three fiscal years due to high used vehicle values driven by the vehicle inventory shortages. Beginning of the fiscal year 2025, agencies increased their vehicle orders utilizing vehicle credits and insurance recovery towards vehicle purchases, which will decrease available lapse if not exceed the available appropriation.

This request is for rebillable E&E increases to allow sufficient appropriation authority to purchase required raw materials to provide essential services to agencies for continued operations.

**4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)**

Over the past three fiscal years, the appropriation available lapse decreased from 28% in fiscal year 2022 to 8% in fiscal year 2024. The requested rebillable expense amount is based on the 7.8% increase in postage effective fiscal year 2025. 65% of the appropriation is used to purchase postage to provide essential mail services to agencies. The requested other equipment amount is based on anticipated increase in usage of the vehicle credits and insurance recovery funds by agencies towards vehicle purchases. Fiscal year 2025 expenditures are projected to exceed the available appropriation and will require a supplemental request.

**2. CORE DESCRIPTION**

In FY 2018 the General Assembly appropriated \$1 for transfer from the Department's core budget to the State Legal Expense Fund for the payment of claims, premiums, and expenses provided by Section 105.711 through Section 105.726, RSMo. In order to fund such expenses, the General Assembly also authorized three percent flexibility from the Department's operating budget into the \$1 transfer appropriation.

### 2. CORE DESCRIPTION

The AHC provides neutral and independent hearing officers who conduct hearings and issue written decisions in disputes between a state agency or commission and a business or individual. The AHC's decisions may be appealed to judicial-branch courts. The AHC has authority in over a hundred areas, including: state income, sales, and withholding tax; discipline of professional licenses, as well as appeals of denials of those licenses; medical marijuana; Medicaid provider disputes; due process complaints under the federal Individuals with Disabilities Education Act (IDEA); limited appeals of state employee personnel matters; motor vehicle dealer licenses; decisions of certain commissions under the Missouri Department of Natural Resources; appeals of orders issued by the Missouri Ethics Commission; liquor control; fantasy sports licenses; motor carrier and railroad safety matters; and certain franchisor/franchisee disputes. On average, the AHC opens approximately 2000 cases per year.

**2. CORE DESCRIPTION**

The Children's Trust Fund (CTF) is a quasi-governmental organization with a 501 c(3) designation that works to prevent child abuse and neglect through grant distribution, public education, awareness, and training. CTF was established by state statute in 1983 as a public-private partnership governed by a 17-member Board of Directors, including two members of the House of Representatives and two members of the Senate. Unique in its origin and mission, CTF is the only state agency to receive public and private revenue funding for the specific purpose of child abuse and neglect prevention. Funding is obtained from dedicated fees on marriage licenses and vital records, voluntary contributions designated on Missouri state income tax returns, sales of the specialty CTF prevent child abuse license plate, general donations, interest income from the Fund, and other grants. CTF funded programs include home visiting services for high-risk families with an outcomes-based funding structure, child sexual abuse prevention, child care planning, child fatality prevention, including distribution of cribs and safe sleep education, public education to prevent child abuse and support parents and caregivers and a responsive program addressing community-identified needs.

The Children's Trust Fund (CTF) is in negotiations with MO HealthNet and the state's three managed care organizations (MCOs) to create an all-plan "In Lieu of Services" to provide evidence-based home visiting services to pregnant and postpartum women and their children. An "In Lieu of Services" is an alternative service or setting that is a medically appropriate and cost-effective substitute for a covered service or setting under the Medicaid State Plan. CTF states home visiting services and models have strong evidence that they improve maternal, infant and child health, safety and well-being.

### 2. CORE DESCRIPTION

The Children's Trust Fund (CTF) is a quasi-governmental organization with a 501 c(3) designation that works to prevent child abuse and neglect through grant distribution, public education, awareness, and training. CTF was established by state statute in 1983 as a public-private partnership governed by a 17-member Board of Directors, including two members of the House of Representatives and two members of the Senate. Unique in its origin and mission, CTF is the only state agency to receive public and private revenue funding for the specific purpose of child abuse and neglect prevention. Funding is obtained from dedicated fees on marriage licenses and vital records, voluntary contributions designated on Missouri state income tax returns, sales of the specialty CTF prevent child abuse license plate, general donations, interest income from the Fund, and other grants. CTF funded programs include home visiting services for high-risk families with an outcomes-based funding structure, child sexual abuse prevention, childcare planning, child fatality prevention, including distribution of cribs and safe sleep education, public education to prevent child abuse and support parents and caregivers and a responsive program addressing community-identified needs. These funds are specific to community-based grants to prevent child sexual abuse.

### 3. PROGRAM LISTING (list programs included in this core funding)

**CORE - CTF Community Based Grants**

**Bill Section 05.170**

These funds support community-based child sexual abuse prevention initiatives in areas with high rates of reported child sexual abuse and training and technical assistance to communities wanting to expand sexual abuse prevention efforts. The community initiatives will utilize multiple strategies/programs to reduce child sexual abuse, including education programs for adults (e.g., Stewards of Children), education programs for children and youth (e.g., Child Safety Matters), prevention training and consultation services for youth-serving organizations (e.g., Awareness to Action Missouri), and evidence-based treatment programs for youth with problematic sexual behavior (e.g., Problematic Sexual Behavior – Cognitive-Behavioral Therapy).

**CORE - Regional Collective Impact Hubs**

**Bill Section 05.170**

Research shows that home visiting programs work best when collaborating with other governmental and non-profit service agencies, including healthcare, mental health, and social support services. Collective Impact home visiting provides our state with the supportive infrastructure for maximizing the effectiveness, reach and impact of home visiting. Collective impact sites support the state's centralized referral system that reduces service duplication and facilitates access for families, match families with the home visiting service that meets their needs best, collect shared data and outcomes measures across home visiting provides, facilitate quality improvement and help align governmental and philanthropic home visiting funding. In urban areas, this means more efficient and effective services for families facing risks and reduced duplication of effort. In rural areas, collective impact improves access to resources which are typically only available in cities, including funding and specialized services and improved collaborative relationships across resource poor regions.

### 2. CORE DESCRIPTION

The Children's Trust Fund (CTF) is a quasi-governmental organization with a 501 c(3) designation that works to prevent child abuse and neglect through grant distribution, public education, awareness, and training. CTF was established by state statute in 1983 as a public-private partnership governed by a 17-member Board of Directors, including two members of the House of Representatives and two members of the Senate. Unique in its origin and mission, CTF is the only state agency to receive public and private revenue funding for the specific purpose of child abuse and neglect prevention. Funding is obtained from dedicated fees on marriage licenses and vital records, voluntary contributions designated on Missouri state income tax returns, sales of the specialty CTF prevent child abuse license plate, general donations, interest income from the Fund, and other grants. CTF funded programs include home visiting services for high-risk families with an outcomes-based funding structure, child sexual abuse prevention, child care planning, child fatality prevention, including distribution of cribs and safe sleep education, public education to prevent child abuse and support parents and caregivers and a responsive program addressing community-identified needs. These funds are specific to supporting families' access to quality childcare and early education.

### 3. PROGRAM LISTING (list programs included in this core funding)

Funds shall be used for analysis and planning in conjunction with local stakeholders to develop community plans to improve access to quality childcare and early education. The program will provide direct and technical assistance to at least ten communities, with priority given to communities with a population fewer than 40,000.

**3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.**

Over the past ten years, MOPERM has grown at a significant rate and the number of participating public entities has increased from 878 to 1051. As the number of public entity members have increased, the corresponding operational workload has increased, particularly in responsibilities for underwriting and claims. Because of the increase in public entity members and the corresponding operational workload, MOPERM needs one additional full time employee to address business needs. MOPERM also needs PS budget authority to allow flexibility in funding current PS obligations including fluctuations caused by staff turnover and leave pay outs.

From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)**

There is a core reduction of 1 FTE to offset the request for an additional position. MOPERM needs additional PS budget authority to be able to fully staff their unit and right size their PS budget. There was a large leave payout in FY25 that contributed to MOPERM needing a supplemental, and MOPERM has several other employees that may retire in the next couple of years that will likely also have large leave payouts upon retirement. MOPERM has no flexibility and needs additional room in their PS budget to be able to handle unforeseen events. All expenditures are made from the OA Revolving Administrative Trust Fund which are reimbursed by MOPERM using funds generated through MOPERM member contributions.

**2. CORE DESCRIPTION**

The core request provides resources necessary for the Missouri Ethics Commission and staff to meet the duties and responsibilities described in Chapters 105 and 130, RSMo and Mo Constitution Article VIII, Section 23. These duties and responsibilities include, but are not limited to, the administration of the following: • training and filer assistance for campaign finance, personal financial disclosure, and lobbyist reports • repository and publication of campaign finance, personal financial disclosure, and lobbyist reports • campaign finance disclosure report review and audit • lobbyist registration • lobbyist report review and audit • personal financial disclosure statement • opinion writing in response to formal requests • investigation of conflict of interest allegations • audit and investigation of complaints • investigation of alleged code of conduct violations The authority to investigate complaints is specifically provided in Chapter 105, RSMo. Further details concerning the duties and responsibilities of the Ethics Commission can be found in Sections 105.955.14 through 105.955.18, RSMo. As specified in Section 105.955.1, RSMo, the Commission is assigned to the Office of Administration for budgeting purposes only. The primary goal of the Commission is to promote voluntary compliance with, and when necessary, impartial enforcement of, the statutes over which the Commission has jurisdiction. In general, this includes ensuring that all reports and statements are filed in a timely manner, are complete and accurate, and that information not otherwise protected by law is available to the public

**2. CORE DESCRIPTION**

This core request is also for the payment of annual debt service expenses related to the Leasehold Revenue Bonds Series 2005 and Series 2006. These bonds were issued through the Missouri Development Finance Board for the purchase of two buildings in St. Louis, one building in Florissant, and one building in Jennings. A portion of these leases were refunded in May 2013. Debt service amounts for these lease/purchase agreements vary from year to year. The principal amount of outstanding Series A 2013 Refunding and Series B 2013 Refunding bonds as of 7/1/24 is \$15,180,000 and will mature on 10/1/2030. This request represents a core reduction of \$300.

As part of FMDC's strategic priority to promote efficient space utilization while addressing the needs of each state agency, FMDC has been working to sell the following underutilized properties and purchase one new property that will more efficiently meet state agency needs while reducing maintenance costs for vacant buildings.

**St. Louis Properties- sold or selling:**

- Prince Hall State Office Building - \$444,000 (Closed July 2024)
- Hubert Wheeler State School - \$750,000 (Closing Dec 2024)
- Gateway Hubert Wheeler State School - \$2,500,000 (Closing Dec/Jan)
- Wainwright State Office Building - \$8,250,000 (Closing Dec/Jan)
- Mill Creek State Office Building - \$4,850,000 (Closing Dec 2024)
- Total Sold State Property in St Louis- \$16,794,000**

**4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)**

This funding will be deposited into General Revenue. FMDC is in the process of acquiring a new building in Chesterfield MO and is utilizing the Missouri Finance Board (MFB) to cover the acquisition cost. FMDC is requesting authority to allow General Revenue funding generated by the building sales listed above to cover the cost of the new building purchase. If approved, OA-FMDC anticipates paying off the debt before the first payment must be made.

**2. CORE DESCRIPTION**

This core request is to retain the services of a financial advisor and bond counsel to assist the State with managing its \$527.7 million of outstanding debt administered by the Office of Administration. The Financial advisor and bond counsel, with knowledge of the bond market, are responsible for monitoring the market with respect to the State's outstanding debt. They are responsible for making recommendations to State staff on any debt savings opportunities available to the State. They also keep the State apprised on any new financing mechanisms and strategies that would reduce the State's borrowing costs.

### 2. CORE DESCRIPTION

This core request is to provide funding for the State's contribution to the Bartle Hall Convention Center in Kansas City. Sections 67.638 - 67.645, RSMo allow certain cities and counties to create a "Convention and Sports Complex Fund" for the purpose of developing, maintaining or operating within its jurisdiction, sports, convention, exhibition, or trade facilities. The state may then contribute annually to each fund. The state began contributing to the fund in Fiscal Year 1991. State contributions of \$2,000,000 annually will be paid.

**2. CORE DESCRIPTION**

This core request is to provide funding for the State's contribution to the Jackson County (Kauffman/Arrowhead) Sports Stadium Complex. Sections 67.638 - 67.645, RSMo allow certain cities and counties to create a "Convention and Sports Complex Fund" for the purpose of developing, maintaining or operating within its jurisdiction, sports, convention, exhibition, or trade facilities. The state may then contribute annually to each fund. The state began contributing to the fund in Fiscal Year 1991. State contributions of \$3,000,000 annually will be paid.

**2. CORE DESCRIPTION**

This core request is for payments that may become due to the Federal Government for items such as interest, refunds, and penalties. The most common use of the appropriation is for interest paid annually to the Federal Government pursuant to the Cash Management Improvement Act (CMIA) agreement. The CMIA agreement is signed annually to allow the State to receive federal funds. The agreement requires the State to repay interest that accrues between the time federal funds are deposited in the State Treasury and the time those funds are paid to the recipients of federally funded programs.

**2. THIS REQUEST CAN BE CATEGORIZED AS:**

Cost to Continue

**3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.**

The Federal Government requires the state to enter into a Cash Management Improvement Act (CMIA) agreement annually as one of the requirements for accepting federal funds. Each spring, the State pays the US Treasury interest that accrues between the time federal funds are deposited in the State Treasury and the time those funds are paid to the recipients of the federally funded programs. The interest rate charged is published each December. The current best estimate is 4.75%. In FY 2023 the interest rate was 4.23% and the State paid more than \$5.1 million. Since this payment is directly related to interest rates, it is possible this request will need to be adjusted in the future depending on actual interest rates.

The requested amount is an estimate, the actual need will be dependent on interest rates. There is a Supplemental request in FY25.

**2. CORE DESCRIPTION**

In March 2021, the federal government passed the American Rescue Plan Act (ARPA) of 2021 in response to the COVID-19 pandemic. One-time authority was added in FY22 in order to allow the state to pass federal dollars to the local municipal districts. The local municipal districts had to claim the funds and any remaining funds are to be returned to the federal government. Authority was requested in FY25 to return unclaimed funds upon the request of the federal government.

### 2. CORE DESCRIPTION

This request provides the mechanism to transfer funds from the Budget Reserve Fund into general revenue or any other state fund for short-term loans pursuant to Section 27(a), Article IV, Constitution of Missouri. This appropriation also allows for transfers from various other funds into general revenue or any other state funds for short-term loans. Transfers from the Budget Reserve Fund are deemed "cash operating transfers." An amount equal to the cash operating transfer received by such fund, together with the interest that would have been earned on such amount, must be transferred back to the Budget Reserve Fund or other fund prior to May 16th of the fiscal year in which the transfer was made. No cash operating transfers out of the Budget Reserve Fund may be made after May 15th of any fiscal year. Transfers from other state funds into general revenue or other state fund shall only be transferred from May 15th to June 30th in any fiscal year, and an amount equal to the cash operating transfer received by such fund, together with the interest that would have been earned on such amount, must be transferred back to the other fund prior to June 30th of the fiscal year in which the transfer was made.

### 2. CORE DESCRIPTION

Transfer authority is required to transfer monies from general revenue or the Budget Reserve Fund to meet the provisions of Article IV, Section 27(a), Constitution of Missouri. If the sum of the ending balance of the budget reserve fund in any fiscal year, and any amounts owed to the fund, is less than seven and one-half percent of the net general revenue collections for the same year, the difference shall stand appropriated and shall be transferred from the general revenue fund to the budget reserve fund by the fifteenth day of the succeeding fiscal year. Likewise, if the balance in the budget reserve fund at the close of any fiscal year exceeds seven and one-half percent of the net general revenue collections for the previous fiscal year, that excess amount shall be transferred to the general revenue fund unless such excess balance is as a result of direct appropriations made by the general assembly for the purpose of increasing the balance of the fund; provided, however, that if the balance in the fund at the close of any fiscal year exceeds ten percent of the net general revenue collections for the previous fiscal year, the commissioner of administration shall transfer the excess amount to the general revenue fund notwithstanding any specific appropriations made to the fund.

**2. CORE DESCRIPTION**

This appropriated transfer mechanism allows the Division of Accounting to correct prior fiscal year revenue transactions that were erroneously deposited into the incorrect fund. After a fiscal year has ended, revenue "correction" documents cannot be processed. This appropriated transfer is requested specifically to allow the transfer from the fund that erroneously received the deposit in a prior fiscal year to the correct fund in the current fiscal year.

**2. CORE DESCRIPTION**

An accepted accounting practice, allocations recover costs for services provided to other entities. For instance, the federal government allows the State of Missouri to recover overhead costs for federal programs through a Statewide Cost Allocation Plan (SWCAP). Using standard accepted accounting methods, the Central Services Cost Allocation Plan (CSCAP) recovers the costs of providing services to various state funds including those provided by the Office of Administration, the Department of Revenue, the Governor's Office, the Lieutenant Governor's Office, the Secretary of State's Office, the State Auditor's Office, the Attorney General's Office, the General Assembly, and the Capitol Police. To determine a fund's participation eligibility, the Office of Administration systematically analyzes relevant constitutional provisions, statutory language, fund revenue sources, and other appropriate considerations.

2. CORE DESCRIPTION

Flood Control Program: The Department of Defense/US Army Corps of Engineers disburses 75% of funds received from lands acquired for Flood Control, Navigation, and Allied Purposes to compensate local taxing units for the loss of taxes from federally acquired lands. Counties receiving the funds expend the money for the benefit of public schools and public roads in the county.

2. CORE DESCRIPTION

The Office of Administration acts as a 'pass-through' agent, distributing the revenue to the counties according to RSMo 12.070.2. The revenue is split in proportional shares based on the amount of minerals extracted per year in each county where mining occurs. Counties receiving the funds expend the money for the benefit of public schools and public roads in the county.

**2. CORE DESCRIPTION**

Pursuant to Section 50.850, RSMo, the Office of Administration may reimburse counties, out of funds appropriated by the general assembly, for expenses related to the prosecution of crimes occurring within institutions under the supervision and management of the Department of Corrections. Reimbursements are not to exceed 50% of expenses, and the amount of reimbursement may be based on the number of cases referred, filed, or tried. Pursuant to Section 50.853, RSMo, the Office of Administration may reimburse counties of the third and fourth class, out of funds appropriated by the general assembly, for expenses related to the trial of capital cases. The reimbursements are not to exceed 50% of actual expenses, and are "limited to counties which were, at the time of the trial, in a negative financial situation."

**3. WHY IS THIS FUNDING NEEDED? PROVIDE AN EXPLANATION FOR ITEMS CHECKED IN #2. INCLUDE THE FEDERAL OR STATE STATUTORY OR CONSTITUTIONAL AUTHORIZATION FOR THIS PROGRAM.**

Pursuant to Section 50.850, RSMo, the Office of Administration may reimburse counties, out of funds appropriated by the general assembly, for expenses related to the prosecution of crimes occurring within institutions under the supervision and management of the Department of Corrections. Reimbursements are not to exceed 50% of expenses, and the amount of reimbursement may be based on the number of cases referred, filed, or tried.

A new county recently requested reimbursement under this statute. OA does not currently have sufficient appropriation authority to make any additional reimbursements. There is a corresponding supplemental request.

**4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? From what source or standard did you derive the requested levels of funding? Were alternatives such as outsourcing or automation considered? If based on new legislation, does request tie to TAFP fiscal note? If not, explain why. Detail which portions of the request are one-times and how those amounts were calculated.)**

The amounts paid out of this appropriation have increased over time and OA completely exhausted all available authority in FY24. Additional authority is needed to continue paying reimbursements under this appropriation to all counties that have made requests.

**5. BREAK DOWN THE REQUEST BY BUDGET ACCOUNT CLASS, JOB CLASS, AND FUND SOURCE. IDENTIFY ONE-TIME COSTS.**

### 2. CORE DESCRIPTION

Funds appropriated for grants to qualified Regional Planning Commissions are distributed in accordance with statutes. Section 251.034, RSMo states that "Payments made under Sections 251.032 to 251.038 to the various regional planning commissions shall be distributed on a matching basis of one-half state funds for one-half local funds. No local unit shall receive any payment without providing the matching funds required. The state funds so allocated shall not exceed the sum of sixty-five thousand dollars each for the East-West Gateway Coordinating Council and the Mid-America Regional Council. The remaining allocated state funds shall not exceed the sum of twenty-five thousand dollars for each of the following regional planning commissions:..." (South Central Ozark, Ozark Foothills, Green Hills, Pioneer Trails, Bootheel, Harry S Truman, Mark Twain, Mo-Kan, Southeast Missouri, Boonslick, Northwest Missouri, Mid-Missouri, Kaysinger Basin, Lake of the Ozarks, Meramec, Northeast Missouri, and Southwest Missouri).

## FLEXIBILITY REQUEST FORM

<b>BUDGET UNIT NUMBER:</b> 350001B <b>BUDGET UNIT NAME:</b> Commissioner's Office <b>HOUSE BILL SECTION:</b> 5.005	<b>DEPARTMENT:</b> Office of Administration  <b>DIVISION:</b> Commissioner's Office
<b>1. Provide the amount by fund of personal service flexibility and the amount by fund of expense and equipment flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed. If flexibility is being requested among divisions, provide the amount by fund of flexibility you are requesting in dollar and percentage terms and explain why the flexibility is needed.</b>	
<b>DEPARTMENT REQUEST</b>	
PS/EE flexibility of 5% would allow the Commissioner's Office to effectively manage limited resources for the current fiscal year. 5% Flexibility is also requested between sections 5.005, 5.010, 5.015, 5.025, 5.030, 5.055, 5.070, 5.080, 5.100. This is the same request as approved in FY25.	
<b>2. Estimate how much flexibility will be used for the budget year. How much flexibility was used in the Prior Year Budget and the Current Year Budget? Please specify the amount.</b>	
<b>PRIOR YEAR ACTUAL AMOUNT OF FLEXIBILITY USED</b>	<b>CURRENT YEAR ESTIMATED AMOUNT OF FLEXIBILITY THAT WILL BE USED</b>
\$13,600	Unknown
<b>BUDGET REQUEST ESTIMATED AMOUNT OF FLEXIBILITY THAT WILL BE USED</b>	
Unknown	
<b>3. Please explain how flexibility was used in the prior and/or current years.</b>	
<b>PRIOR YEAR EXPLAIN ACTUAL USE</b>	<b>CURRENT YEAR EXPLAIN PLANNED USE</b>
Funding was flexed from PS to E&E to cover end of year invoices.	Flexibility would be used to effectively manage resources as needed for PS or EE expenditures.

### DEPARTMENT REQUEST

ITSD is requesting 25% flex between PS & EE within section 5.025 and 25% flex between section 5.030 and section 5.025. This is the same level of flexibility that was approved in FY25. This flexibility is requested to help manage priorities for all consolidated agencies. Constantly changing needs of the departments served by ITSD require that funding be flexible so that proper spending from the appropriations is maintained. It is critical that ITSD retain key technical staff that continue to optimize the IT systems and maintain technical support so that E&E operating costs are contained and managed. In addition, certain software, equipment, or contracted services may be needed that can be funded from salary savings. This flexibility allows ITSD to provide services in the most efficient and reliable manner without artificially increasing the "federal and other" appropriation authority of various funds.
